

CULTURAL MAPPING

Definition

Exploration of the complexity of local meanings of place through engagement with people and artistic practices, often combined with other sources of data. Aims at identifying local cultural resources supported by the communities, including landscape and cultural heritage. Usually forming a crucial part of the cultural planning process and has been recognized by UNESCO as a crucial tool and technique in preserving the world's intangible and tangible cultural assets. It encompasses a wide range of techniques and activities from community-based participatory data collection and management to sophisticated mapping using GIS (Geographic Information Systems).

In the context of COST RELY, cultural mapping might be considered during planning processes for renewable energy facilities.
