

PLANNING PROCESS

Definition

A planning process, also called a planning procedure, is a legal framework by which a plan is developed from a start to its completion. It is defined in relevant national legislation. Such a process has a number of stages, depending on the type of plan (e.g. urban, environmental), scale (e.g. strategic, detailed), legal requirements for public participation (e.g. frequency and types of public consultation, public integration, types of stakeholders), assessment requirements (e.g. strategic environmental assessment), and stages at which administrative approval is required (e.g. ministerial or departmental).
